WELCOME TO THE TIMELESS JOURNEY

Dear Valued Stakeholders,

I invite you to 'The Timeless Experience' - a movement of regional and global private and public sector players passionate about Africa's transformation and unfolding potential.

In the recent past there have been global economic shifts that have invariably had a domino effect on the socio-economic fabric of countries, communities and companies across the world. In the context of Africa, the future of governance and business will be determined by how these shifts are harnessed to help governments, businesses and leaders extend their impact and influence locally, regionally and globally. More importantly, Africa's growth potential will be greatly influenced by strategies and policies that foster the inclusion of the 50% - 70% of Africa's under-utilised human capital - women, youth and differently-abled individuals - in all areas of growth and development.

Working through our 7 pillars, we spearhead socio-economic initiatives and leverage collaborative partnerships that focus on increasing Africa's competitiveness on the global platform and highlighting the role of women.

We invite you to walk with us as we collectively shape the future of Africa.

Yours Faithfully,

Nyakan June

CEO/ Founder – Timeless Women of Wonder (TWOW)

It is time to develop inclusive policies that ensure allocation of resources to women at all levels. We have developed great macro economic policies for women. Now we need to go deeper to the micro level to ensure that wealth is being generated at the household levels, contributing to GDP per capita.

**TRANSFORMING AFRICA
SOCIALY AND ECONOMICALLY
THROUGH WOMEN**

Women are key contributors to the economy. Their voices need to be magnified in decision making and they need access to opportunities in national development. New strategies, new models and alignment to local context will go a long way to realising full women's social and economic empowerment.

ACCELERATORS
FOR HIGH-IMPACT
SMES

ACCELERATORS

SMEs receive coaching, training and consulting from highly experienced industry experts from different countries to scale up and create high-impact businesses that can compete locally, continentally & globally.

SUPPORTING & DEVELOPING SMES

TIMELESS INNOVATION HUB

Through strategic and collaborative partnerships, we seek to transform part of our headquarters in Nairobi (Kenya) into an **innovation hub focused on equipping female founders, leaders and SMEs with technology and digital skills**. We currently have existing space for 4 private offices for teams of up to four, dedicated work spaces for freelancers, shared workspaces for professionals who need a flexible work arrangement, an 12-14 people capacity boardroom, and an 80-people capacity event space. We also have land space for the construction of a computer lab and dedicated tech-class workshops.

TIMELESS
ENTREPRENEURSHIP

Trade is critical for moving Africa from being the largest consumers to the largest producer and suppliers by utilization of available resource.

The Timeless Market Place carries authentic products made by women showcasing continental creativity and enhancing trade. It is a platform for linkages for the various players in the trade value chain for the transformation of Africa.
